

Florian Maire

CONTACT INFORMATION	Département de mathématiques et statistique, Université de Montréal, Pavillon André-Aisenstadt, Montréal, QC H3T 1J4, Canada http://maths.ucd.ie/~fmaire ,	(+1) 514 343 7977 maire@dms.umontreal.ca
RESEARCH INTERESTS	Computational statistics, Sequential inference, MCMC methods, Variance reduction methods, Functional data analysis, Image processing, Random graphs inference	
EDUCATION	University College Dublin , Dublin, Ireland January 2014 – January 2018 Post Doctoral Research Fellow, <ul style="list-style-type: none">Topic: Bayesian statistics, learning in Big Data settings, Noisy MCMC, Adaptive MCMC, Inference in random graphsAdvisor: Nial FrielResearch centers: School of Mathematics and Statistics, Insight Université Pierre et Marie Curie , Paris, France October 2010 – December 2013 Ph.D. in Probability and Statistics, <ul style="list-style-type: none">Thesis: <i>Detection and Classification of Multispectral Infrared Targets</i>Supervisors: Randal Douc, Éric Moulines and Sidonie LefebvreResearch centers: ONERA, Telecom SudParis CITI, Telecom ParisTech TSI Telecom SudParis , Évry, France September 2007 – August 2010 Diplôme d'ingénieur, equivalent to M.Sc., <ul style="list-style-type: none">Relevant courses: Probability, Statistics, Calculus, Information theoryMajor: Mathematical finance	
EMPLOYMENT	 Université de Montréal , Montréal, Québec, Canada September 2018 to present Assistant Professor (professeur adjoint), Département de mathématiques et statistique,	
SPOKEN LANGUAGES	<ul style="list-style-type: none">French (native speaker)English (fluent)German (intermediate)Arabic (novice)	
REFEREED PUBLICATIONS	<ul style="list-style-type: none">Maire, F., Friel, N. and Alquier, P. “Informed Sub-Sampling MCMC: Approximate Bayesian Inference for Large Datasets.”, <i>Statistics and Computing</i>, (2018) To appear, linkBouranis, L., Friel, N. and Maire, F.. “Model comparison for Gibbs random fields using noisy reversible jump Markov chain Monte Carlo.”, <i>Computational Statistics & Data Analysis</i>, (2018) To appear, arXiv

PRESENTATIONS

- Conferences
 - International Conf. on Monte Carlo Methods and Applications, HEC, Montréal, Canada July 2017
 - Piecewise Deterministic Markov Processes and Sampling, École des Ponts, Marne-la-Vallée, France February 2017
 - MCMC and Particle methods: Sampling, Inference and Stochastic Approximation, ICMS, Edinburgh, UK September 2016
 - CRiSM Workshop Estimating intractable constant in Statistics, University of Warwick, UK April 2016
 - MCMSki, Lenzerheide, Switzerland January 2016
 - Conference on Applied Statistics in Ireland, Cork, Ireland May 2015
 - IEEE Machine Learning for Signal Processing, Santander, Spain September 2012
 - Congrès d'Analyse Numérique (SFdS), Superbesse, France May 2012
 - IEEE Statistical Signal Processing workshop, Nice, France June 2011
- Seminars
 - Apprentissage statistique à l'ére du Big Data : stabilité d'approximations de certains algorithmes, Université de Montréal, Canada January 2018
 - Noisy Markov chain Monte Carlo methods for efficient approximate Bayesian inference, University College Dublin, Ireland November 2017
 - Informed Sub-Sampling MCMC: Approximated Bayesian Inference for Large Datasets, Glasgow University, UK February 2017
 - Some remarks on spectral analysis of Markov chains: from Protein Dynamics to MCMC algorithms, University College Dublin, November 2016
 - Light and Widely Applicable MCMC: Bayesian inference for large datasets, University College Dublin, Ireland June 2015
 - Échantillonnage par chaîne de Markov adaptative : une approche incrémentale, Université d'Évry Val d'Essonne, France April 2015
 - Adaptive Incremental Mixture Markov chain Monte Carlo, Trinity College Dublin, Ireland November 2014
 - Bayesian inference for Big data problems with applications to time series model, University College Dublin, Ireland September 2014
 - Stochastic Online EM: theory and implementation, University College Dublin, Ireland February 2014
 - Peskun ordering for non homogeneous Markov chains, University College Dublin, Ireland January 2014

TEACHING EXPERIENCE	Lecturing Module: Time Series, level: Postgraduate, School of Mathematics and Statistics, University College Dublin, Ireland	2014-2015 & 2015-2016, Semester 2, 24 hrs
	Lecturing Module: Probability Theory, level: Second Year, School of Mathematics and Statistics, University College Dublin, Ireland	2015-2016 & 2016-2017, Semester 1, 80 hrs
	Lecturing Courses: Monte Carlo methods and Stochastic processes, level: Postgraduate, Main Instructor: Nial Friel, School of Mathematics and Statistics, University College Dublin, Ireland	2014-2015, Semester 2, 6 hrs
	Teaching Courses: Introduction to Probability and Calculus Instructor: Randal Douc double-degree programme Telecom SudParis, Évry, France	Spring 2012 and Spring 2013
	Teaching Supervision of Maths project Instructor: Vathana Ly-Vath Simulation, Random graphs, Machine learning ENSIIE, Évry, France	Spring 2011, Spring 2012 and Spring 2013
	Lampros Bouranis, 2014-2018 PhD student at UCD, supervised by N. Friel, defended January 2018 topic: Bayesian inference for exponential random graph models.	
SUPERVISION	Marie Vialaret, June–November 2017 Master student, ENSAE topic: Non-reversible Markov chains and applications to efficient MCMC design.	
	Quentin Bergé, Summer 2016 Master student, (Telecom SudParis) topic: Bayesian inference of transition rate matrix and application to protein dynamics.	
	Olivier Roux, Feb.-July 2016 Master student, Centrale Marseille (Engineering School) topic: Modelling and inferring molecular conformational changes of proteins.	
	Lionel Riou-Durand, Summer 2015 Master student, ENSAE and MVA Cachan topic: Stability of different Markov chains based on variations of the Metropolis-Hastings algorithm and their application in Big Data problems.	
	Adil Salim, Summer 2014 Master student, ENSAE, now PhD candidate at Telecom ParisTech topic: Influence of data ordering in Sequential Monte Carlo methods for static inference.	
	AWARD On November the 24th 2016, I was awarded the 2016 DGA prize for my PhD thesis. The DGA is the French procurement agency and found (or partially found) around 450 PhD thesis. It rewards every year three PhD thesis for their original scientific contribution.	

- MISCELLANEOUS
- I have served as reviewer for Statistics and Computing, the Electronic Journal of Statistics, the Annals of Applied Probability, IEEE Transactions on Signal Processing, AISTATS and ICML.
 - Internship in Société Générale Corporate & Investment Banking, La Défense, France in the Risk department: deal pricing, structuring, Bâle II (July–December 2009)
 - Internship in Lund University, Lund, Sweden with **Jimmy Olsson** in the Centre for Mathematical Sciences: time series, Markov chains (July–September 2010)
 - Collaboration with **Skillpages** and **Insight**: research on statistical methods for spam and auto-moderation in social network (January – September 2014)
